EDUCATION

Harcourt Butler Technical University, Kanpur
B.Tech in Electronics Engineering

CGPA: 7.78
2023 – 2027

Central Hindu Boys School, BHU, Varanasi
Class XII

75.2%
2021

Raj English School, Varanasi
Class X

96.2%
2019

EXPERIENCE

Banaras Locomotive Works (BLW), Indian Railways, Varanasi
Industrial Training Trainee

Certificate [↗](#)
June 2026

- Completed industrial training across Maintenance & Service Shop (MSS), Loco Testing Shop (LTS), Engine Test Shop (ETS), and Traction Assembly Shop (TAS), gaining exposure to locomotive maintenance, assembly, and testing workflows.
- Studied locomotive electrical systems and testing procedures with emphasis on engineering safety, quality control, and coordination across technical functions.
- Interacted with engineers and prepared a technical report documenting production processes, electrical systems, testing procedures, and industrial safety practices.

PROJECTS

VHDL-Based Automatic Water Level Controller | VHDL, FSM, Xilinx ISE

Project [↗](#)

- Collaborated in a team to design an Automatic Water Level Controller using three operating states: EMPTY, FILLING, and FULL.
- Developed the controller in VHDL to manage state transitions and pump operation.
- Identified and corrected an invalid state transition to prevent potential pump dry-run and verified the design using Xilinx ISE.

Letshire – AI Assistant | Python, FastAPI, React, Groq API

GitHub [↗](#) | **Live** [↗](#)

- Designed and developed a full-stack AI assistant using React, FastAPI, and an LLM API to process user queries and generate responses.
- Designed the frontend-backend architecture, developed REST APIs with input validation, and deployed the application using Vercel and Render.

TECHNICAL SKILLS

- **Core Electronics:** Electronic Devices, Analog Electronics, Digital Electronics, Network Theory, Communication Systems, Microprocessors & Microcontrollers, VLSI Design
- **Programming & Problem Solving:** C++, Python, Data Structures & Algorithms
- **Software Fundamentals:** DBMS, Operating Systems, Computer Networks
- **Data & AI:** NumPy, Pandas, LLM APIs
- **Tools:** Git, Linux, MySQL

ACHIEVEMENTS

- Earned a **branch change to Electronics Engineering** at HBTU Kanpur through improved first-year academic performance.
- Solved **400+ algorithmic problems** across LeetCode and Codeforces, demonstrating structured problem-solving and algorithmic thinking. [Codolio](#) [↗](#)
- Collaborated in a **4-member team** at **Smart India Hackathon 2025**, contributing to the development and presentation of a PM Internship Portal prototype under strict time constraints. [Certificate](#) [↗](#)

EXTRACURRICULAR

- **Volunteer, Google Developer Student Clubs (GDSC)** – Assisted in organizing technical events and workshops while actively participating in developer-focused activities and community initiatives.
- **Volunteer, Association of Electronics Engineers (AETE)** – Assisted in organizing technical events and expert talks, facilitating knowledge-sharing sessions and interactions with industry professionals and domain experts.
- **Hackathon Participant** – Participated in multiple virtual and college-level hackathons, including Hack4Delhi and Smart India Hackathon 2025, collaborating in teams to develop solutions under strict time constraints.

CERTIFICATION

- **Machine Learning Specialization** – DeepLearning.AI & Stanford University
