EDUCATION

Harcourt Butler Technical University, Kanpur
Bachelor of Technology in Electronics Engineering

CGPA: 7.78
(2023 – 2027)

TECHNICAL SKILLS

- **Languages:** Python, C++, JavaScript, SQL
- **Generative AI:** Large Language Models (LLMs), RAG, Agentic AI, Prompt Engineering, LLM APIs
- **AI/ML:** Machine Learning Fundamentals, NLP Fundamentals, Pydantic, Structured Output
- **Backend & APIs:** FastAPI, Node.js, Express.js, REST APIs, JWT
- **Databases:** MongoDB, MySQL
- **Tools/Platforms:** Git, GitHub, Linux, Streamlit, Postman, VS Code, Vercel, Render
- **LLM Platforms:** Groq API, OpenAI API, Gemini API

EXPERIENCE

NIVARO Health Technologies Pvt. Ltd.
Software Development Engineer Intern

July 2026
Certificate 📄

- Integrated backend APIs and Firebase services including **Authentication, Firestore, and Cloud Storage** for application data management.
- Developed responsive UI components and resolved issues identified during internal testing, improving application usability and stability.
- Collaborated with the development team using **Git/GitHub** on data modeling, feature integration, and deployment workflows in an agile environment.

PROJECTS

LangGraph RAG Chatbot | Python, LangGraph, LangChain, Groq, FAISS, Streamlit

GitHub 📄 | Live 🌐

- Developed an end-to-end RAG application for contextual PDF Q&A using Hugging Face embeddings, FAISS similarity search, and Groq LLM inference.
- Implemented PDF ingestion, recursive text chunking, semantic retrieval, and thread-specific document indexing for context-aware responses.
- Designed a LangGraph agent workflow with tool calling, integrating web search, calculator, and stock-price retrieval capabilities.
- Built an interactive Streamlit interface with multi-threaded chat history and SQLite-backed conversation persistence for deployed usage.

Letshire - AI Assistant | Python, FastAPI, React, Groq LLM API, Pydantic

GitHub 📄 | Live 🌐

- Built an AI recruiter chat assistant using Python, FastAPI, React, and Groq LLM API, enabling resume-grounded candidate queries.
- Developed an LLM-powered resume parser that converts unstructured PDF resumes into structured, schema-validated JSON using Pydantic.
- Designed REST APIs with FastAPI for resume processing and AI-powered candidate interactions, separating backend services from the React frontend.
- Deployed the FastAPI backend on Render and React frontend on Vercel, enabling a publicly accessible full-stack AI application.

ACHIEVEMENTS

- Solved **400+ algorithmic problems** across LeetCode, Codeforces, and CodeChef Codolio 📄
- Achieved a maximum **LeetCode rating of 1439** and **Codeforces rating of 816**.
- Ranked **2nd in the university round of Smart India Hackathon 2025** for developing a web-based portal for the PM Internship Scheme using **React and Flask**. Certificate 📄

CERTIFICATIONS

- **Machine Learning Specialization** – DeepLearning.AI & Stanford University (Coursera) Certificate 📄
- **System Design Masterclass** – Udemy Certificate 📄
